

CONTROL ▪ SMART ▪ SAFETY

DOOR SOLUTION FOR FUTURE

Power by FORCEDOOR / FMK

In order to provide users with a more comfortable and intelligent living environment. we keep in deeply developing the door operators, in addition, now we also providing customers with smart access and smart security products.

All of our smart access products can be added and controlled in the APP. Besides, users can check the status of all the products in the security center like records, suggestions, reminders and reports for maintenance.

TABLE OF CONTENTS

ACCESS CONTROL	5

IOT R&D CENTER

ACCESS CONTROL

SMART ACCESS CONTROL

Six-axis gyroscope for wireless tilt sensor to learn your position of your garage/industrial door, Monitors your garage/industrial door status.

F-CAM

Support garage doors and industrial door drive heads supply power

5-24 V

WTS

CONTROL UNIT

Connected to all types garage door and industrial door drives through wires

MULTI FREQUENCY

Wireless communication using multi frequency technology between F-box and tilt sensor.

SMART CONNECT

The F-box with a built-in WiFi module, this allow users to control all sectional garage/industrial doors by "F-linX" APP

F-BOX

App Store

SMART ACCESS CONTROL

UNIVERSAL SMART CONTROL KIT

F-BOX-TILT

Art No: 20412003

“F-box-tilt” kit is an universal smart control system by smart phone, just need the “F-box-tilt” kit to allow you can control your garage/industrial doors everywhere of the world, make your garage/industrial to be a part of your smart life.

F-box * 1

Wireless tilt sensor * 1

WIRELESS TILT SENSOR

WTS

Art No: 20206009

Six-axis gyroscope for tilt sensor to learn your position of your garage/industrial door, monitors your garage/industrial door status.

Power supply	3V
Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Operating temperature	-20°C - + 60°C

UNIVERSAL SMART CAMERA

F-CAM

Art No: 20206013

Pixels	3 million
Power supply	5V-24V
Dual frequency	2.4G + 5G
Degree of protection	IP66
Night vision	6 fill lights
Support cloud and T card storage	
Support motion detection, send you a thumbnail alert and notifications	
Two-way audio, you can listen and talk remotely from your phone	

SMART ACCESS CONTROL

Solar energy system for door and gate automation.

The solar energy system support optional wifi module to linked with "F-linX" APP

Low Power Consumption Mode (LPC)

The system will cut off the power supply to the motor when the door stopped for a certain time, so the battery lasts much longer.

The time can be chosen from 1 minute to 10 minutes (default 1 min).

SOLAR ENERGY SYSTEM

F-SUN 01

Art No: 20206012

20W solar panel	*1
Control unit	*1
Solar panel bracket	*1
4.5Ah lithium battery	*1
Transmitter	*1
Connection cable	*2
Screw bag	*1
User manual	*1

F-SUN 02

Art No: 20206014

40W solar panel	*1
Control unit	*1
Solar panel bracket	*1
9Ah lithium battery	*1
Transmitter	*1
Connection cable	*2
Screw bag	*1
User manual	*1

SOLAR ENERGY SYSTEM

20W solar panel + bracket

20SP-B Art No: 20412001

Short circuit current (Isc)	0.95A
Maximum power voltage (Vmp)	24V
Maximum power current (Imp)	0.84A
Open circuit voltage (Voc)	28.3V
Dimension	340*410*25mm

40W solar panel + bracket

40SP-B Art No: 20412002

Short circuit current (Isc)	1.75A
Maximum power voltage (Vmp)	24V
Maximum power current (Imp)	1.67A
Open circuit voltage (Voc)	28.3V
Dimension	670*410*25mm

Lithium battery 4.5Ah

S-LB 01 Art No: 10906012

22.2V 4.5Ah

Lithium battery 9Ah

S-LB 02 Art No: 10906013

22.2V 9Ah

Wifi module

S-WIFI Art No: 10402081

Linked with F-linX APP

SAFETY SYSTEM

MULTI FREQUENCY

Wireless communication using multi frequency technology between F-box and safety accessories.

SMART CONNECT

The F-box with a built-in WiFi module, this allow users to linked with “F-linX” APP for “Safety Center” to track all information about safety and security of the door and gates.

SAFETY SYSTEM

- WIRELESS WICKET DOOR SWITCH
- WIRELESS PHOTO BEAM
- WIRELESS OPTICAL SAFETY EDGE

WIRELESS WICKET DOOR SWITCH KIT

F-WICKET Art No: 20412004

SAFETY STANDARD

RED Directive 2014/53/UE, Article 3.1(a) safety

RED Directive 2014/53/UE, Article 3.1(b) - EMC

RED Directive 2014/53/UE, Article 3.2 - Use of spectrum

Machine Directive 2006/42/EC, Annex I - Health and safety

EMC Directive 2014/30/UE, Annex I - Emissions and immunity

MULTI
FREQUENCY

Wireless communication using multi frequency technology between F-box and wicket transmitter for wicket doors.

SMART
CONNECT

The F-box with a built-in WiFi module, this allow users to linked with "F-linX" APP for "Safety Center" to track all information about wicket door switch of the door and gates.

RECEIVER FOR WICKET DOORS

F-BOX

Art No: 20206007

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	12-24 V AC/DC
Number of relays	8 relays
Built-in WiFi format	2.4G, 5G
F-linX APP	Available
NC/NO	Adjustable
Operating temperature:	-20°C - + 60°C

Advantage

4 relay outlets with selectable operating mode, can behave like a safety contact for reversal function or stop function.

3 relay outlets with OP/STP/CL contact

1 relay outlet with PB (open-stop-close) contact

Fast code buttons for wireless safety sensors and tilt sensor.

Low voltage port for flash light contact with 12-24V, high voltage port for flash light contact with 120- 230V

WICKET TRANSMITTER FOR WICKET DOORS

W-TX

Art No: 20206004

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	3.6V DC (1 x 3.6V lithium battery)
Channels	2 channels
Battery capacity	2600 mAh
Operating consumption	70 ua
Standby	15 ua
IP grade	IP 65
Operating temperature:	-20°C - + 60°C

Advantage

Magnetic sensor, contact-free magnetic detector

Height adjustable mounting base for the various wicket doors frame

Range between transmitter and sensor: 30mm

Trio-Frequency technology for anti-interference

Approximate battery life of 2 years

WIRELESS PHOTO BEAM KIT

F-BEAM Art No: 20412005

SAFETY STANDARD

RED Directive 2014/53/UE, Article 3.1(a) safety

RED Directive 2014/53/UE, Article 3.1(b) - EMC

RED Directive 2014/53/UE, Article 3.2 - Use of spectrum

Machine Directive 2006/42/EC, Annex I - Health and safety

EMC Directive 2014/30/UE, Annex I - Emissions and immunity

MULTI
FREQUENCY

Wireless communication using multi frequency technology between F-box and wireless photo beam.

SMART
CONNECT

The F-box with a built-in WiFi module, this allow users to linked with "F-linX" APP for "Safety Center" to track all information about wireless photo beam of the door and gates.

RECEIVER FOR PHOTO BEAM

F-BOX

Art No: 20206007

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	12-24 V AC/DC
Number of relays	8 relays
Built-in WiFi format	2.4G, 5G
F-linX APP	Available
NC/NO	Adjustable
Operating temperature:	-20°C - + 60°C

Advantage

4 relay outlets with selectable operating mode, can behave like a safety contact for reversal function or stop function.

3 relay outlets with OP/STP/CL contact

1 relay outlet with PB (open-stop-close) contact

Fast code buttons for wireless safety sensors and tilt sensor.

Low voltage port for flash light contact with 12-24V, high voltage port for flash light contact with 120- 230V

TRANSMITTER FOR PHOTO BEAM

F-PE

Art No: 20206010

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	3.6V DC (1 x 3.6V lithium battery)
Channels	2 channels
Battery capacity	2600 mAh
Transmitting power adjustable	Yes
Adjustable Angle for Tx and Rx	Horizontally (-90 ° ~ +90 °)
Operating consumption	7 meters - 35ua 10 meters - 49ua
RX consumption	Operation - 5.3mA Standby - 60ua
IP grade	IP 54
Operating temperature:	-20°C - + 60°C

Advantage

Complete wireless TX and RX infrared beam with built in 3.6V lithium battery

Trio-Frequency technology for anti-interference

Both the transmitter and the receiver are connectable to the contact of a mechanical or resistive safety edge with NC or NO contacts

Adjustable switch to adjust the infrared beam transmitting power for various environment

Low standby and low operating consumption, approximate battery life of 2 years

WIRELESS SAFETY EDGE KIT

F-EDGE 02 Art No: 20412006

SAFETY STANDARD

RED Directive 2014/53/UE, Article 3.1(a) safety

RED Directive 2014/53/UE, Article 3.1(b) - EMC

RED Directive 2014/53/UE, Article 3.2 - Use of spectrum

Machine Directive 2006/42/EC, Annex I - Health and safety

EMC Directive 2014/30/UE, Annex I - Emissions and immunity

MULTI
FREQUENCY

Wireless communication using multi frequency technology between F-box and safety junction box for safety edge.

SMART
CONNECT

The F-box with a built-in WiFi module, this allow users to linked with "F-linX" APP for "Safety Center" to track all information about safety edge of the door and gates.

RECEIVER FOR SAFETY EDGE

F-BOX

Art No: 20206007

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	12-24 V AC/DC
Number of relays	8 relays
Built-in WiFi format	2.4G, 5G
F-linX APP	Available
NC/NO	Adjustable
Operating temperature:	-20°C - + 60°C

Advantage

4 relay outlets with selectable operating mode, can behave like a safety contact for reversal function or stop function.

3 relay outlets with OP/STP/CL contact

1 relay outlet with PB (open-stop-close) contact

Fast code buttons for wireless safety sensors and tilt sensor.

Low voltage port for flash light contact with 12-24V, high voltage port for flash light contact with 120- 230V

SAFETY EDGE TRANSMITTER JUNCTION BOX

SE-TX 02

Art No: 20206006

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	3.6V DC (1 x 3.6V lithium battery)
Channels	2 channels (Reversal & Stop per channel)
Battery capacity	2600 mAh
Operating consumption	70 ua
Standby	15 ua
IP grade	IP 65
Operating temperature:	-20°C - + 60°C

Advantage

8k2Q inlet for resistive safety edge. Selection as an inlet for NC contact can be made using a jumper

Trio-Frequency technology for anti-interference

Approximate battery life of 2 years

WIRELESS OPTICAL SAFETY EDGE KIT

F-OPTO(OSE-6) Art No: 20412007

F-OPTO(OSE-10) Art No: 20412008

SAFETY STANDARD

RED Directive 2014/53/UE, Article 3.1(a) safety

RED Directive 2014/53/UE, Article 3.1(b) - EMC

RED Directive 2014/53/UE, Article 3.2 - Use of spectrum

Machine Directive 2006/42/EC, Annex I - Health and safety

EMC Directive 2014/30/UE, Annex I - Emissions and immunity

MULTI FREQUENCY

Wireless communication using multi frequency technology between F-box and safety junction box for wireless optical safety edge.

f-linX SMART CONNECT

The F-box with a built-in WiFi module, this allow users to linked with "F-linX" APP for "Safety Center" to track all information about wireless optical safety edge of the door and gates.

RECEIVER FOR SAFETY EDGE

F-BOX

Art No: 20206007

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	12-24 V AC/DC
Number of relays	8 relays
Built-in WiFi format	2.4G, 5G
F-linX APP	Available
NC/NO	Adjustable
Operating temperature:	-20°C - + 60°C

Advantage

4 relay outlets with selectable operating mode, can behave like a safety contact for reversal function or stop function.
3 relay outlets with OP/STP/CL contact
1 relay outlet with PB (open-stop-close) contact
Fast code buttons for wireless safety sensors and tilt sensor.
Low voltage port for flash light contact with 12-24V, high voltage port for flash light contact with 120- 230V

SAFETY EDGE TRANSMITTER JUNCTION BOX

SE-TX 02

Art No: 20206006

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	3.6V DC (1 x 3.6V lithium battery)
Channels	2 channels (Reversal & Stop per channel)
Battery capacity	2600 mAh
Operating consumption	70 ua
Standby	15 ua
IP grade	IP 65
Operating temperature:	-20°C - + 60°C

Advantage

Trio-Frequency technology for anti-interference
Approximate battery life of 2 years

OPTICAL EDGE SENSOR SET

OSE

Technical data

Range	1~15m
Operating voltage	10~16VDC, resistant against voltage reversal
Current consumption	40mA
Signal range	O
Output	Transistor-output, max. load 20mA, short-circuit-proof
Output-level	Rectangular signal low: 0~1V high: 3~5V
Housing material	Plastic ABS, Lexan, IR transparent
Wire material	PUR, halogen free, acid- and oil-resistant
IP grade	IP 67
Operating temperature	-20°C - + 70°C

Advantage

Automatic operating mode recognition radio modules/spiral cable
High electromagnetic interference immunity
Resistant against voltage reversal and short-circuits
OSE-signal, compatible with all common door controls
Regulated transmit power

OSE-6 (TX 6m) Art No: 20401001

OSE-10 (TX 10m) Art No: 20401002

WIRELESS AIR SWITCH SAFETY EDGE KIT

F-AIR

Art No: 20412009

SAFETY STANDARD

RED Directive 2014/53/UE, Article 3.1(a) safety

RED Directive 2014/53/UE, Article 3.1(b) - EMC

RED Directive 2014/53/UE, Article 3.2 - Use of spectrum

Machine Directive 2006/42/EC, Annex I - Health and safety

EMC Directive 2014/30/UE, Annex I - Emissions and immunity

MULTI FREQUENCY

Wireless communication using multi frequency technology between F-box and safety junction box for wireless air switch safety edge.

f-linX SMART CONNECT

The F-box with a built-in WiFi module, this allow users to linked with "F-linX" APP for "Safety Center" to track all information about wireless air switch safety edge of the door and gates.

RECEIVER FOR SAFETY EDGE

F-BOX

Art No: 20206007

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	12-24 V AC/DC
Number of relays	8 relays
Built-in WiFi format	2.4G, 5G
F-linX APP	Available
NC/NO	Adjustable
Operating temperature:	-20°C - + 60°C

Advantage

4 relay outlets with selectable operating mode, can behave like a safety contact for reversal function or stop function.
3 relay outlets with OP/STP/CL contact
1 relay outlet with PB (open-stop-close) contact
Fast code buttons for wireless safety sensors and tilt sensor.
Low voltage port for flash light contact with 12-24V, high voltage port for flash light contact with 120- 230V

SAFETY EDGE TRANSMITTER JUNCTION BOX

SE-TX 02

Art No: 20206006

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	3.6V DC (1 x 3.6V lithium battery)
Channels	2 channels (Reversal & Stop per channel)
Battery capacity	2600 mAh
Operating consumption	70 uA
Standby	15 uA
IP grade	IP 65
Operating temperature:	-20°C - + 60°C

Advantage

Trio-Frequency technology for anti-interference
Approximate battery life of 2 years

AIR SWITCH SET

AIR SWITCH

Art No: 20403040

Technical data

Hose	Ø 4 mm
Connection plug external diameter	Ø 22 mm
End plug external diameter	Ø 22 mm
Material of plug	TPE
Air hose connector	Straight and 90 degrees
Material of air hose	Brass, POM
Housing material	Plastic ABS, Lexan, IR transparent
IP grade	IP 67
Operating temperature	-20°C - + 70°C

Advantage

Air switch hose with Ø 4 mm, PVC material
Air switch connection plug and DW end plug, with TPE material
Airswitch and air hose connector with straight and 90 degrees
Degree of protection IP67, filled with epoxy resin

WIRELESS SLACK ROPE SWITCH KIT(SINGLE)

F-CORD-1 Art No: 20412010

SAFETY STANDARD

RED Directive 2014/53/UE, Article 3.1(a) safety

RED Directive 2014/53/UE, Article 3.1(b) - EMC

RED Directive 2014/53/UE, Article 3.2 - Use of spectrum

Machine Directive 2006/42/EC, Annex I - Health and safety

EMC Directive 2014/30/UE, Annex I - Emissions and immunity

MULTI FREQUENCY

Wireless communication using multi frequency technology between F-box and safety junction box for wireless slack rope switch.

f-linX SMART CONNECT

The F-box with a built-in WiFi module, this allow users to linked with "F-linX" APP for "Safety Center" to track all information about wireless slack rope switch of the door and gates.

RECEIVER FOR SAFETY EDGE

F-BOX

Art No: 20206007

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	12-24 V AC/DC
Number of relays	8 relays
Built-in WiFi format	2.4G, 5G
F-linX APP	Available
NC/NO	Adjustable
Operating temperature:	-20°C - + 60°C

Advantage

4 relay outlets with selectable operating mode, can behave like a safety contact for reversal function or stop function.

3 relay outlets with OP/STP/CL contact

1 relay outlet with PB (open-stop-close) contact

Fast code buttons for wireless safety sensors and tilt sensor.

Low voltage port for flash light contact with 12-24V, high voltage port for flash light contact with 120- 230V

SAFETY EDGE TRANSMITTER JUNCTION BOX

SE-TX 02

Art No: 20206006

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	3.6V DC (1 x 3.6V lithium battery)
Channels	2 channels (Reversal & Stop per channel)
Battery capacity	2600 mAh
Operating consumption	70 uA
Standby	15 uA
IP grade	IP 65
Operating temperature:	-20°C - + 60°C

Advantage

Trio-Frequency technology for anti-interference

Approximate battery life of 2 years

SLACK ROPE SWITCH SET

SRS

Art No: 20206001

Technical data

Plastic Material	PC+ABS
Contact	Micro switch
Connection wires	2 wires
Operating temperature	-20°C - + 70°C

Advantage

Suitable for fitting to cable break devices

Switch with bracket is operated as soon as bracket of cable break device is relieved and operates the switch by turning lifting cable, in that way stopping the E-operator

Micro switch connect

WIRELESS SLACK ROPE SWITCH KIT(DUAL)

F-CORD-2

Art No: 20412011

SAFETY STANDARD

RED Directive 2014/53/UE, Article 3.1(a) safety

RED Directive 2014/53/UE, Article 3.1(b) - EMC

RED Directive 2014/53/UE, Article 3.2 - Use of spectrum

Machine Directive 2006/42/EC, Annex I - Health and safety

EMC Directive 2014/30/UE, Annex I - Emissions and immunity

MULTI FREQUENCY

Wireless communication using multi frequency technology between F-box and safety junction box for wireless slack rope switch.

f-linX SMART CONNECT

The F-box with a built-in WiFi module, this allow users to linked with "F-linX" APP for "Safety Center" to track all information about wireless slack rope switch of the door and gates.

RECEIVER FOR SAFETY EDGE

F-BOX

Art No: 20206007

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	12-24 V AC/DC
Number of relays	8 relays
Built-in WiFi format	2.4G, 5G
F-linX APP	Available
NC/NO	Adjustable
Operating temperature:	-20°C - + 60°C

Advantage

4 relay outlets with selectable operating mode, can behave like a safety contact for reversal function or stop function.
3 relay outlets with OP/STP/CL contact
1 relay outlet with PB (open-stop-close) contact
Fast code buttons for wireless safety sensors and tilt sensor.
Low voltage port for flash light contact with 12-24V, high voltage port for flash light contact with 120- 230V

SAFETY EDGE TRANSMITTER JUNCTION BOX(DUAL)

SE-TX 03

Art No: 20206017

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	3.6V DC (1 x 3.6V lithium battery)
Channels	2 channels (Reversal & Stop per channel)
Battery capacity	2600 mAh
Operating consumption	70 ua
Standby	15 ua
IP grade	IP 65
Operating temperature:	-20°C - + 60°C

Advantage

Trio-Frequency technology for anti-interference
Approximate battery life of 2 years

SLACK ROPE SWITCH SET

SRS

Art No: 20206001

Technical data

Plastic Material	PC+ABS
Contact	Micro switch
Connection wires	2 wires
Operating temperature	-20°C - + 70°C

Advantage

Suitable for fitting to cable break devices
Switch with bracket is operated as soon as bracket of cable break device is relieved and operates the switch by turning lifting cable, in that way stopping the E-operator
Micro switch connect

WIRELESS E-LOCK KIT

F-LOCK Art No: 20412012

SAFETY STANDARD

RED Directive 2014/53/UE, Article 3.1(a) safety

RED Directive 2014/53/UE, Article 3.1(b) - EMC

RED Directive 2014/53/UE, Article 3.2 - Use of spectrum

Machine Directive 2006/42/EC, Annex I - Health and safety

EMC Directive 2014/30/UE, Annex I - Emissions and immunity

MULTI
FREQUENCY

Wireless communication using multi frequency technology between F-box and wireless E-lock.

SMART
CONNECT

The F-box with a built-in WiFi module, this allow users to linked with "F-linX" APP for "Safety Center" to track all information about wireless E-lock of the door and gates.

RECEIVER FOR WIRELESS E-LOCK

F-BOX

Art No: 20206007

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	12-24 V AC/DC
Number of relays	8 relays
Built-in WiFi format	2.4G, 5G
F-linX APP	Available
NC/NO	Adjustable
Operating temperature:	-20°C - + 60°C

Advantage

4 relay outlets with selectable operating mode, can behave like a safety contact for reversal function or stop function.

3 relay outlets with OP/STP/CL contact

1 relay outlet with PB (open-stop-close) contact

Fast code buttons for wireless safety sensors and tilt sensor.

Low voltage port for flash light contact with 12-24V, high voltage port for flash light contact with 120- 230V

TRANSMITTER FOR WIRELESS E-LOCK

E-LOCK

Art No: 20206002

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	6V DC (4 x 1.5V AAA battery)
Operating consumption	72 ua
IP grade	IP 54
Operating temperature:	-20°C - + 60°C

Advantage

The F-Lock works automatically with industrial door openers. it always locks and unlocks with every operation of the door

The model F-Lock is only compatible with the Force Door Multi-drive version and all DC/FC/AC industrial door versions

An extra security guarantee for industrial doors

With 4 x 1.5V battery for 2 years normal operation life

Get it on

WIRELESS WICKET DOOR SWITCH KIT

F-WICKET

Art No: 20412004

SAFETY STANDARD

RED Directive 2014/53/UE, Article 3.1(a) safety

RED Directive 2014/53/UE, Article 3.1(b) - EMC

RED Directive 2014/53/UE, Article 3.2 - Use of spectrum

Machine Directive 2006/42/EC, Annex I - Health and safety

EMC Directive 2014/30/UE, Annex I - Emissions and immunity

MULTI
FREQUENCY

Wireless communication using multi frequency technology between F-box and wicket transmitter for wicket doors.

SMART
CONNECT

The F-box with a built-in WiFi module, this allow users to linked with "F-linX" APP for "Safety Center" to track all information about wicket door switch of the door and gates.

RECEIVER FOR WICKET DOORS

F-BOX

Art No: 20206007

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	12-24 V AC/DC
Number of relays	8 relays
Built-in WiFi format	2.4G, 5G
F-linX APP	Available
NC/NO	Adjustable
Operating temperature:	-20°C - + 60°C

Advantage

4 relay outlets with selectable operating mode, can behave like a safety contact for reversal function or stop function.

3 relay outlets with OP/STP/CL contact

1 relay outlet with PB (open-stop-close) contact

Fast code buttons for wireless safety sensors and tilt sensor.

Low voltage port for flash light contact with 12-24V, high voltage port for flash light contact with 120- 230V

WICKET TRANSMITTER FOR WICKET DOORS

W-TX

Art No: 20206004

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	3.6V DC (1 x 3.6V lithium battery)
Channels	2 channels
Battery capacity	2600 mAh
Operating consumption	70 ua
Standby	15 ua
IP grade	IP 65
Operating temperature:	-20°C - + 60°C

Advantage

Magnetic sensor, contact-free magnetic detector

Height adjustable mounting base for the various wicket doors frame

Range between transmitter and sensor: 30mm

Trio-Frequency technology for anti-interference

Approximate battery life of 2 years

WIRELESS PHOTO BEAM KIT

F-BEAM

Art No: 20412005

SAFETY STANDARD

RED Directive 2014/53/UE, Article 3.1(a) safety

RED Directive 2014/53/UE, Article 3.1(b) - EMC

RED Directive 2014/53/UE, Article 3.2 - Use of spectrum

Machine Directive 2006/42/EC, Annex I - Health and safety

EMC Directive 2014/30/UE, Annex I - Emissions and immunity

**MULTI
FREQUENCY**

Wireless communication using multi frequency technology between F-box and wireless photo beam.

**SMART

RECEIVER FOR PHOTO BEAM

F-BOX

Art No: 20206007

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	12-24 V AC/DC
Number of relays	8 relays
Built-in WiFi format	2.4G, 5G
F-linX APP	Available
NC/NO	Adjustable
Operating temperature:	-20°C - + 60°C

Advantage

4 relay outlets with selectable operating mode, can behave like a safety contact for reversal function or stop function.

3 relay outlets with OP/STP/CL contact

1 relay outlet with PB (open-stop-close) contact

Fast code buttons for wireless safety sensors and tilt sensor.

Low voltage port for flash light contact with 12-24V, high voltage port for flash light contact with 120- 230V

TRANSMITTER FOR PHOTO BEAM

F-PE

Art No: 20206010

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	3.6V DC (1 x 3.6V lithium battery)
Channels	2 channels
Battery capacity	2600 mAh
Transmitting power adjustable	Yes
Adjustable Angle for Tx and Rx	Horizontally (-90 ° ~ +90 °)
Operating consumption	7 meters - 35ua 10 meters - 49ua
RX consumption	Operation - 5.3mA Standby - 60ua
IP grade	IP 54
Operating temperature:	-20°C - + 60°C

Advantage

Complete wireless TX and RX infrared beam with built in 3.6V lithium battery

Trio-Frequency technology for anti-interference

Both the transmitter and the receiver are connectable to the contact of a mechanical or resistive safety edge with NC or NO contacts

Adjustable switch to adjust the infrared beam transmitting power for various environment

Low standby and low operating consumption, Approximate battery life of 2 years

WIRELESS E-LOCK KIT

F-LOCK

Art No: 20412012

SAFETY STANDARD

RED Directive 2014/53/UE, Article 3.1(a) safety

RED Directive 2014/53/UE, Article 3.1(b) - EMC

RED Directive 2014/53/UE, Article 3.2 - Use of spectrum

RECEIVER FOR WIRELESS E-LOCK

F-BOX

Art No: 20206007

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	12-24 V AC/DC
Number of relays	8 relays
Built-in WiFi format	2.4G, 5G
F-linX APP	Available
NC/NO	Adjustable
Operating temperature:	-20°C - + 60°C

Advantage

4 relay outlets with selectable operating mode, can behave like a safety contact for reversal function or stop function.

3 relay outlets with OP/STP/CL contact

1 relay outlet with PB (open-stop-close) contact

Fast code buttons for wireless safety sensors and tilt sensor.

Low voltage port for flash light contact with 12-24V, high voltage port for flash light contact with 120- 230V

TRANSMITTER FOR WIRELESS E-LOCK

E-LOCK

Art No: 20206002

Technical data

Radio technology	Trio-Frequency technology
Frequency	Multi from 430 MHz – 450 MHz
Signal modulation	FSK
Signal range	20 meters
Power supply	6V DC (4 x 1.5V AAA battery)
Operating consumption	72 ua
IP grade	IP 54
Operating temperature:	-20°C - + 60°C

Advantage

The F-Lock works automatically with industrial door openers. it always locks and unlocks with every operation of the door

The model F-Lock is only compatible with the Force Door Multi-drive version and all DC/FC/AC industrial door versions

An extra security guarantee for industrial doors

With 4 x 1.5V battery for 2 years normal operation life

SLIDING
DOORS

MULTI FREQUENCY

Wireless communication using multi frequency technology between F-box and safety accessories.

SMART CONNECT

The F-box with a built-in WiFi module, this allow users to linked with “F-linX” APP for “Safety Center” to track all information about safety and security of the door and gates.

WIRED
SAFETY

F-RASTER Art No: 10901244

The light curtain is a vital safety device designed for sectional industrial doors, serving to increase protection in environments where these large, motorized access points are used regularly. Primarily used in commercial, industrial and warehouse environments, the light curtain plays a vital role in preventing accidents and injuries, contributing to a safer workplace.

A light barrier works similar to an invisible safety barrier and consists of a series of photoelectric beams projected across the door opening. These beams create an intangible "curtain" that, when not interrupted, allows the gate to function as usual. However, if anything or anyone were to interrupt the beams passing through the opening, the light curtain would immediately send a signal to the door control system, prompting it to stop or reverse the door's movement to prevent possible damage.

EN 13849-2:2012 PL C, category 2

WIRED PHOTO BEAM

F-PE-WD

Art No: 20206011

Technical data

Power supply	12/24V AC DC
Limit power supply	18-35V DC, 15-28V AC
Signal range(Max)	20 meters
Transmitting power adjustable	Yes
Adjustable Angle for Tx and Rx	Horizontally (-90 ° ~ +90 °)
NC/NO contact	Adjustable
Mounting adjustable bracket	Not Included
Wire for TX and RX	Not Included
IP grade	IP 65
Operating temperature:	-20°C - + 70°C

Advantage

One way wired (4 wire) photo beam with TX and RX.
 FIT SLIM photocells have synchronism function in AC/DC current and ranges of 20 m.
 Available 180°rotation
 Resistive safety edge with NC or NO contacts.
 Anti-sunlight design for outdoor application purpose.
